Dear Customer,

Aesculap AG as legal manufacturer of the device(s) Haemostatic forceps has updated the Instructions for Use (IFU). The content changes are provided in this Field Safety Notice (FSN) as preventive action to all affected economic operators globally. This update, following the initial FSN dated December 16, 2024, has become necessary because additional affected articles have been identified and added to this FSN.

Geschätzter Kunde,

Aesculap AG als Hersteller der Produkt (hämostatische Klemmen) hat die Gebrauchsanweisung (IFU) aktualisiert. Die inhaltlichen Änderungen werden in dieser dringenden Sicherheitsinformation (FSN) als präventive Maßnahme für alle betroffenen Wirtschaftsbeteiligten weltweit bereitgestellt. Die Aktualisierung der ursprünglichen FSN vom 16. Dezember 2024 wurde notwendig, da zusätzliche betroffene Artikel identifiziert und in diese FSN aufgenommen wurden.

2. Reason for Field Safety Corrective Action/ Grund für die Sicherheitskorrekturmaßnahme (FSCA)

2.1 Description of the product problem / Problembeschreibung

According to market feedback, the Haemostatic forceps have been used according to indications which are currently not covered by the design (e.g. larger blood vessels or fixation of medical materials) leading to customer complaint cases related to the breakage of the device(s) during use caused by the failure mode "breakage of the box lock".

Nach Rückmeldungen aus dem Markt wurden die hämostatischen Klemmen für Indikationen verwendet, die nicht durch das Design abgedeckt sind (z. B. große Blutgefäße oder Fixierung von medizinischem Material), was zu Kundenbeschwerden im Zusammenhang mit dem Bruch der Klemmen während der Anwendung aufgrund des Fehlerbildes "Bruch Box Lock" führte.

2.2 Hazard giving rise to the FSCA / Gefahr, der Anlass für die FSCA ist

By its design and the limits of the jaw opening, the Haemostatic forceps are designed and used in clinical practice for the occlusion of small blood vessels. In the event of the device failure "breakage of the box lock", the functionality of the device(s) is lost, which may result in the blood vessel not being occluded properly and/or parts falling in the situs.

In a rare worst-case scenario, the device(s) failure may cause long-term health consequences if the device(s) is used in conjunction with another device in a cardiopulmonary bypass as was uniquely reported in one customer complaint case.

Hämostatische Klemmen sind durch ihre Konstruktion und die Begrenzung der Maulöffnung für den Verschluss kleiner Blutgefäße ausgelegt und werden in der klinischen Praxis entsprechend eingesetzt. Im Falle des Fehlerbildes "Bruch Box Lock" geht die Funktionalität des Instruments verloren, was dazu führen kann, dass das Blutgefäß nicht richtig verschlossen wird und/oder Teile in den Situs fallen.

In seltenen, kritischsten Fällen kann ein Produktversagen zu langfristigen gesundheitlichen Folgen führen, wenn das Produkt zusammen mit einem anderen Produkt für einen Herz-Lungen-Bypass verwendet wird, wie in einem einzelnen Kundenbeschwerdefall berichtet wurde.

2.3 Probability of problem arising / Auftretenswahrscheinlichkeit des Problems

Globally, the occurrence rates for both potential hazards (2.2) resulting from the product problem are as follows:

- Additional medical intervention: 0.00001% (maximum allowable rate: 0.05%)
- Major critical blood loss: 0.000001% (maximum allowable rate: 0.00005%)

Therefore, the occurrence in clinical practice is considered "improbable".

Die Häufigkeit des Auftretens der beiden möglichen Gefährdungen (2.2), die sich aus dem Produktproblem ergeben, stellt sich wie folgt dar:

- Zusätzliche medizinische Intervention: 0,00001% (maximal zulässige Rate: 0,05%)
- Schwerer kritischer Blutverlust: 0,000001% (maximal zulässige Rate: 0,00005%)
- Das Auftreten in der klinischen Praxis wird daher als "unwahrscheinlich" eingestuft.

2.4	Predicted risk to patient/users / Risiko Prognose für Patienten/Endanwender		
	The risk for patients resulting from small blood vessels not being occluded properly and/or parts falling in situs may be minor bleedings which have to be treated by additional medical intervention and may cause surgery delay.		
	The risk from using the device(s) in conjunction with another device in a cardiopulmonary bypass may be immediate and long-term health consequences dependent on the surgical intervention during which the device(s) is used and possible clinical circumstances.		
	Das Risiko für den Patienten, dass kleine Blutgefäße nicht ordnungsgemäß verschlossen werden und/oder Teile in den Situs fallen, kann zu kleineren Blutungen führen, die zusätzliche medizinische Maßnahmen erfordern und den chirurgischen Eingriff verzögern können.		
	Das Risiko, das sich aus der Verwendung der Produkte in Kombination mit anderen Produkten in einem kardiopulmonalen Bypass ergibt, kann zu sofortigen und langfristigen gesundheitlichen Folgen führen, die von dem chirurgischen Eingriff, bei dem die Produkte verwendet werden, und den möglichen klinischen Umständen abhängen.

3. Type of Action to mitigate the risk / Art der Maßnahme zur Minderung des Risikos

3.1 Action To Be Taken by the User / vom Anwender zu ergreifender Maßnahme

The user is requested to promptly implement the new product-specific Instructions for Use (IFU), which is attached to this FSN, and to ensure the compliant use of the device(s) on patients. Additionally, the user must immediately implement the guidelines for verifying the safety and performance of the device(s) within the context of lifecycle monitoring during the reprocessing routine.

The following adjustments have been made in the new product-specific Instructions for Use (IFU) Haemostatic forceps TA016590 - 2024-12 in comparison to the former IFU:

Chapter	Chapter	New content	
2.1.1	Intended purpose	Haemostatic clamps are used for clamping of tissue and	
2.1.2	Intended use	small vessels.	
3.2	Service life	End-of-life indicators for these products are signs of corrosion, cracks as well as deformation in the jaw area and loss of tension.	
3.9.1	Visual inspection	Inspect the product carefully: The surface of the product shall be clean and free of any signs of corrosion and cracks.	
		Especially check the area of the joint and the jaw in open position from both sides. If in doubt, use magnification.	
3.9.2	Functional test	Check the jaw area for deformation and loss of tension.	

Der Anwender wird aufgefordert, die neue produktspezifische Gebrauchsanweisung (IFU), die dieser FSN beigefügt ist, unverzüglich umzusetzen und die vorschriftsmäßige Anwendung des/der Produkte(s) am Patienten sicherzustellen. Darüber hinaus ist der Anwender verpflichtet

unverzüglich die Vorgaben zur Überprüfung der Sicherheit und Leistungsfähigkeit des/der Produkte(s) im Rahmen der Lebenszyklusüberwachung in der Aufbereitungsroutine umsetzen.

	Transmission of this Field Safety Notice/Übermittlung dieses Sicherheitshinweises (FSN)	
	This notice needs to be passed on all those who need to be aware within your organisation or to any organisation where the potentially affected devices have been transferred. (As appropriate)	
	Please transfer this notice to other organisations on which this action has an impact. (As appropriate)	
	Please maintain awareness on this notice and resulting action for an appropriate period to ensure effectiveness of the corrective action.	
Please report all device-related incidents to the manufacturer, representative, and the national Competent Authority if appropriate, as this feedback. *		
	Dieser Hinweis muss an alle Personen in Ihrem Unternehmen übermittelt werden oder an al Unternehmen/Einrichtungen, wohin die eventuell betroffenen Produkte geliefert wurden (wie jeweils zutreffend).	
	Bitte leiten Sie diesen Hinweis an andere Unternehmen/Einrichtungen weiter, auf die diese Maßnahme Auswirkungen hat (wie jeweils zutreffend).	
	Bitte sorgen Sie über einen angemessenen Zeitraum dafür, dass dieser Hinweis berücksichtig wird und bekannt ist, um die Wirksamkeit der Korrekturmaßnahme zu gewährleisten.	

Bitte melden Sie dem Hersteller, Händler oder lokalen Vertreter sowie gegebenenfalls der zuständigen nationalen Behörde alle Vorfälle im Zusammenhang mit dem Produkt, da dies eine wichtige Rückmeldung darstellt. *
